Avery Dennison® Pathfinder® 6057 Printer

Accelerate performance in global Price Management and Compliance through integrated in-plant, DC and store level solutions and reduce complexity while improving speed and accuracy.

AN INTELLIGENT ONE-PIECE PRICE MANAGEMENT SOLUTION

The Avery Dennison Pathfinder 6057 printer allows retailers to quickly and accurately price and mark down items while reducing labor costs.

Compared to traditional “red pen” manual marking methods, the Avery Dennison Pathfinder 6057 offers:

- **Reduced Labor Costs Through Increased Speed and Productivity.**
In internal tests, the Pathfinder 6057 performed over 50% faster than traditional “red pen” manual marking methods.*
- **Improved Pricing Accuracy and Margins.**
The data collection, real time communication and storage ability of the Pathfinder 6057 eliminate error-prone manual data-matching processes. Improved accuracy and the ability to complete markdowns on time, the first time, drive improved margins.
- **Improved Customer Service.**
Training needs are minimal. Sales associates can perform labeling tasks in less time and on the sales floor, ensuring associates are constantly available to customers.
- **Elevated Brand and Profitability.**
Visual consistency of pricing labels protects and further elevates brand while minimizing fraud and shrinkage.

FASTER, MORE ACCURATE THAN TWO-PIECE PRICE MARKING SOLUTIONS

The unique one-piece scan, print and apply feature of the Avery Dennison Pathfinder 6057 also outperforms competitor two-piece printer and data collection solutions:

- Bar code scanning, label printing and label application are performed with just one hand. Less associate item handling and maneuvering streamline item marking and markdowns and increase speed by 42%.
- Less integration and IT support needed.

SCAN, PRINT AND APPLY – IT’S THAT SIMPLE!

Compared to previous models in the Avery Dennison Pathfinder series, the Pathfinder 6057 is faster, easier-to-load, smaller, lighter and has additional storage capacity.
